

Safer and Smarter Lifting

Red Rooster Lifting now a
KITO Erikkila distributor for UK

KITO
ERIKKILA

Red Rooster Lifting has agreed with **KITO ERIKKILA** to enter into a strategic agreement, being appointed as a UK distributor for their range of Prosystem light crane solutions, jib cranes and portal cranes.

Red Rooster has a clear vision to look after every single client's lifting and load measuring requirements by delivering high levels of quality, service safety and integrity. The addition of the KITO Erikkila light crane systems to our product range will expand the range of high-quality lifting solutions available from Red Rooster Lifting.

Scottish firm, Red Rooster Lifting is delighted to announce that they have entered into a strategic agreement with KITO ERIKKILA, being appointed as a UK distributor for their range of Prosystem light crane solutions, jib cranes and portal cranes.

The new agreement will allow KITO ERIKKILA to increase their exposure within the UK market and will expand the range of high-quality lifting solutions available from Red Rooster Lifting. KITO ERIKKILA's Prosystem light cranes are designed to meet the varied and demanding requirements of workstations and production lines that need up to 2,000 kg of lifting capacity.

Red Rooster Lifting have been supplying global industry with high quality lifting equipment solutions for over 30 years. Bill Aitken, Managing Director at Red Rooster Lifting, says...

"We are confident that the deal will enable the company to provide our customers not only with an outstanding quality product, but by growing our versatile lifting solutions we can deliver an even better level of service."

Sami Korpela, Sales Director at KITO ERIKKILA, says he is convinced that the partnership with Red Rooster Lifting will provide end users with the best possible solutions for the most demanding lifting needs with a customer-oriented approach.

"I'm pleased about the partnership with Red Rooster Lifting. The main goal of our partnership is to provide our customers with high-quality lifting products and services," says Sami Korpela.

ABOUT KITO ERIKKILA

KITO Erikkila is a dynamic manufacturer of PROSYSTEM light crane systems, jib cranes, and lifting equipment. The company stands for innovation, know-how, and quality and is part of the worldwide KITO group.

The light crane systems from KITO Erikkila enable ergonomic and safe lifting, improve man-machine co-operation, optimise complex manufacturing processes and achieve maximum production efficiency.

They have a wide range of products and tailored solutions from smartly engineered standard modular components.

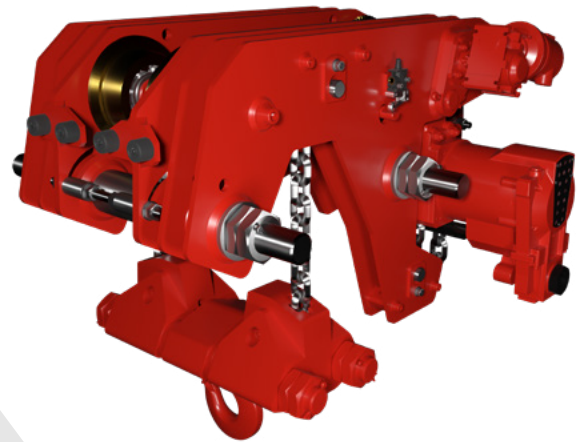

With capacities up to 2000 kg the KITO Erikkila lifting solution range can easily be integrated into your next project.

ABOUT RED ROOSTER LIFTING

For over 30 years **Red Rooster Lifting** has specialised in the supply, rental and servicing of **the best** powered lifting and load measuring **solutions** in the world

We are continually improving our designs and quality systems to ensure the products and services we supply are of the highest quality. We are investing in technology to streamline production and importantly we are investing in our people to promote awareness, responsibility and exceptional customer service.

You'll see our distinctive Red Rooster logo on lifting equipment and load links offshore, on assembly lines, in power plants, refineries, and shipyards across the world.

We are nothing without our people who are all equipped with the product knowledge and expert support to quickly confirm suitability, availability and pricing for all of your lifting requirements.

With our vast experience we can offer technical backup, advice on installation and assistance with breakdowns or a full repair and testing service from our rapid response maintenance facility.

Our product range covers Red Rooster air hoists, EMCE winches, KITO manual & electric hoists, KITO Van Leusden specialised equipment, KITO Erikkila light crane systems, Verton load management systems, Gebuwin Winches and Red Rooster load measuring equipment.

We have been involved in many global lifting projects over the last 30 years including the substantial Claire Ridge and Culzean offshore installations along with two very different challenges for us, the new Queensferry Crossing in Scotland and St Paul's Cathedral bell restoration in London.
